

Label Printer Applicator System

Integrated thermal transfer printer, applicator, tray conveyor with stand. Print 300 dpi one color oven-safe labels precisely applied to top film lid of trays. Print information such as menu, nutritional content, packaged on, consume by dates and even bar codes.

Features

- One color printer with 4" wide print head
- Clarisuite™ software license
- Software compatible with label design software which supports Zebra or Sato print engines
- Uses industry standard labels
- Label content database capacity of 400 MB
- USB port for label upload and backup/restore
- Supports 20 different languages
- Touch screen operator panel with video tutorials for set up, consumables loading, troubleshooting and print-head replacement
- Adjustable stand (height) and conveyor (speed and tray guide rails), with lockable casters
- System set up for left or right side mount on conveyor, dependent on space, location, preference within production space

Benefits

- Precise placement of labels for consistent product presentation
- Enhance meal presentation with product labeling for improved consumer experience
- Satisfy state requirements for product identification with easy to read labels
- Minimal setup steps—conveyor guides and printer/applicator head distance to tray—make integration into meal production simple and quick
- Easily roll in and out for production line flexibility
- Supported by a nationwide service organization
- One-year warranty from date of installation
